

## Stones Throw: Water Turn Off Instructions:

Please notify IMC Resort Services prior to turning the water off to the community at 843-785-4775 ext. 110 or at [Jaime@imchhi.com](mailto:Jaime@imchhi.com).

To turn the water off to your unit, please use your unit's shut off valve. If your unit does not have a shut off valve, please use the valves located within the 3 green boxes out in front of unit 27. **You must turn both valves in all three boxes to turn the water off.** Please turn the valves slowly and one at a time. This will turn the water off to the entire community. When turning the water back on, please turn the valves slowly one at a time.

If you need the water turned off, your unit does not have a shut off valve, and it is not an emergency, please notify IMC Resort Services a minimum of 48 hours prior at [jaime@imchhi.com](mailto:jaime@imchhi.com). IMC will send out an eblast notification to the property owners of the day and approximate time period you, your plumber or PSD will have the water turned off to the community. While the water is off, please install a shut off valve to your unit within your front patio area and notify IMC Resort Services of the location of the new shut off valve for the regime's records.
